The following seven General Education Outcomes were adopted for Calhoun Community College.

1 & 4 will be done through evaluation of student papers, etc. Others will be done through MC questions.

1. Communication Skills: Students will be able to speak and write clearly.

2. Critical Thinking: Students will demonstrate the ability to interpret information, respond and adapt to changing situations, make complex decisions, solve problems, and evaluate actions.

3. Cultural Literacy: Students will demonstrate knowledge of the art/humanities, understand the basic historical chronology, develop a penchant for questioning and be curious about the world.

4. Information and Computer Literacy: Students will develop basic computer skills and demonstrate the ability to access, use, and evaluate resources and information.

5. Quantitative Skills: Students will demonstrate ability to identify, analyze, generalize and communicate quantitative relationships. Students will demonstrate ability to perform daily life tasks that require basic mathematics skills and work problems utilizing basic algebra concepts.

6. Scientific Reasoning: Students will demonstrate inductive and deductive reasoning skills and be able to hypothesize and empirically evaluate their hypotheses.

7. Diversity: Students will demonstrate awareness, understanding, and skills necessary to live and work in a diverse world.

NOTE: Cultural Literacy and Diversity were combined by the College in 2008.
